

**1997 EPA POLLUTION PREVENTION/GREEN MANUFACTURING
CONFERENCE
Pollution Prevention Resource Manual**

TABLE OF CONTENTS

1. Region IV State Pollution Prevention and Technical Assistance Programs.....	1-1
2. Pollution Prevention Resources Available Electronically	2-1
3. Pollution Prevention-Focused Periodicals and Newsletters	3-1
4. Directory of Waste Exchanges Operating in North America	4-1
5. Pollution Prevention Resources Specifically for Federal Facilities	5-1
6. Calendar of Upcoming Pollution Prevention Events	6-1
7. Sources of Pollution Prevention Publications.....	7-1

**1. Region IV State Pollution Prevention and
Technical Assistance Programs**

This section provides a summary of the major programs and contacts for the Region 4 State Pollution Prevention Technical Assistance Programs. Federal Agency contacts within Region 4 are listed at the end of this section.

1997 EPA POLLUTION PREVENTION/GREEN MANUFACTURING CONFERENCE

STATE	ORGANIZATION	CONTACTS
Alabama	Alabama Department of Environmental Management Office of Education and Outreach, P2 Unit P.O. Box 301463 Montgomery, AL 36130-1463	Kathleen Moss, Garry Ellis Phone: 334-213-4303 Fax: 334-213-4399
	Alabama Department of Environmental Management Small Business Assistance P.O. Box 301463 Montgomery, AL 36130-1463	Blake Roper (Ombudsman) Phone: 800-533-2336 Fax: 334-271-7950
	WRATT Foundation Service Building 1B P.O. Box 1010 Muscle Shoals, AL 35660	Roy Nicholson Phone: 205-386-2807 Fax: 205-386-2676
Florida	Florida Department of Environmental Protection Pollution Prevention Program 2600 Blair Stone Rd. Tallahassee, FL 32399-2400	Julie Abcarian, Program Administrator Phone: 850-488-0300 Fax: 850-921-8061
	Florida Department of Environmental Protection Air Resources Management Division Small Business Assistance Program 2600 Blair Stone Rd. Tallahassee, FL 32399-2400	Lorraine Clark Phone: 850-488-1344 Fax: 850-922-6979
Georgia	Georgia Dept. of Natural Resources Pollution Prevention Assistance Division 7 Martin Luther King, Jr. Drive Suite 450 Atlanta, GA 30334	G. Robert Kerr, Bob Donaghue Phone: 404-651-5120 Fax: 404-651-5130
	Georgia Dept. of Natural Resources Hazardous Waste Management Branch 205 Butler Street SE, Suite 1066 Atlanta, GA 30334	Jennifer Kaduck Phone: 404-657-8828 Fax: 404-657-7379

STATE	ORGANIZATION	CONTACTS
	Agricultural Pollution Prevention Assistance Program University of Georgia 203 Barrow Hall Athens, GA 30602	Dr. Mark Risse Phone: 706-542-2154 Fax: 706-542-1886
Kentucky	Kentucky P2 Center University of Louisville Academic Building, Rm 420 Louisville, KY 40292	Cam Metcalf Phone: 502-852-0965 Fax: 502-852-0964
	Kentucky Department of Environmental Protection Air Quality Small Business Ombudsman 18 Reilly Road Frankfurt, KY 40601	Rosemary Wilmoth Phone: 502-564-2150
	Kentucky Business Environmental Assistance Program University of Kentucky 227 Business and Economics Building Lexington, KY 40506-0034	Greg Copley Phone: 606-257-1131 or 7668 Fax: 606-323-1907
Mississippi	Mississippi Dept. of Environmental Quality P.O. Box 10385 Jackson, MS 39289-0385	Thomas E. Whitten, Coen Perrott 601-961-5241 601-961-5376
North Carolina	North Carolina Dept. of Environment, Health and Natural Resources Division of Pollution Prevention and Environmental Assistance P.O. Box 29569 Raleigh, NC 27626-9569 or Parker-Lincoln Building 22728 Capital Blvd. Raleigh, NC 27604	Gary Hunt, Scott Miles Phone: 919-715-6500 Fax: 919-715-6794

STATE	ORGANIZATION	CONTACTS
	University of North Carolina Environmental Assistance Office for Small Business 9201 University City Blvd. Charlotte, NC 28223-0001	Alisa Wickliff Phone: 704-547-3968 Fax: 704-547-3216
South Carolina	South Carolina Dept. of Health and Environment Control Center for Waste Minimization 2600 Bull St. Columbia, SC 29201	Robert E. Burgess Phone: 803-734-4761 Fax: 803-734-9934
	South Carolina Dept. of Health and Environment Environmental Quality Control 2600 Bull St. Columbia, SC 29201	Willie J. Morgan Phone: 803-734-5179 Fax: 803-734-5407
	University of South Carolina Institute of Public Affairs Hazardous Waste Management Research Fund 937 Assembly Street Columbia, SC 29208	Doug Dobson Phone: 803-777-8157 Fax: 803-777-4575
South Carolina (cont=d)	Southeast Manufacturing Technology Center (SMTC) 1136 Washington Street, Suite 300 P.O. Box 1149 Columbia, SC 29202	John Irion Phone: 803-252-6976 Fax: 803-254-8512
	South Carolina Small Business Assistance Program 2600 Bull Street Columbia, SC 29201	Donna Gullede, Small Business Ombudsman Phone: 1-800-819-9001, 803-734-5909 Chad Pollock, Technical Assistance Director Phone: 1-800-819-9001, 803-734-2765
Tennessee	Tennessee Center for Industrial Services 226 Capitol Blvd. Suite 600 Nashville, TN 37219-1804	Ken Hardison Phone: 615-974-3018 Fax: 615-974-1528

STATE	ORGANIZATION	CONTACTS
	Tennessee Division of Pollution Prevention and Environmental Awareness Tennessee Clean Air Assistance Program Clean Air Small Business Assistance Program L&C Annex, 8th FL 401 Church St. Nashville, TN 37243-1551	Linda F. Sadler Phone: 615-532-0760 Fax: 615-532-0614

2. Pollution Prevention Resources Available Electronically (Internet Sites, Networks, Bulletin Board Systems)

Pollution Prevention / Environmental Internet Resources

General Pollution Prevention Websites

Department of Energy (DOE) EPIC Home Page P2 Information Clearinghouse

<http://epic.er.doe.gov/epic>

- The DOE EPIC home page provides a database search of DOE documents, P2 Regulations, Internet search engines, a P2 Calendar, P2 software, environmental information sources, material exchange, material substitution and recycling information.

Defense Environmental Network & Information Exchange (DENIX)

<http://denix.cecer.army.mil/denix/Public/public.html>

-DENIX provides the general public with timely access to environmental legislative, compliance, restoration, cleanup, safety & occupational health, security, and DoD guidance information. Information on DENIX is updated daily and can be accessed through the series of menus listed below, the site map, or via the DENIX full-text search engine

Enviro\$en\$e Home Page

<http://es.inel.gov/>

-The most comprehensive environmental website. Provides search services, industry sector notebooks, links to DOE, EPA, DOD, Federal, Regional and State Agencies, Academia, public interest groups, industry and trade associations, international resources, vendor information, material exchange and substitution libraries, P2 information exchange programs and other

valuable P2 resources. Information is constantly updated. An information brochure is available through the Pollution Prevention Clearinghouse (Voice Number 202/260-1023). PPIC order number A103.

Enviro\$en\$e - American Institute for Pollution Prevention Home Page

<http://es.inel.gov/aipp/>

-The AIPP promotes P2 within industry and throughout society, in part by working through its member organizations. The website provides general P2 information, AIPP meetings, membership organizations, P2 resource materials, P2 publications and P2 project updates.

EPA Home Page

<http://www.epa.gov/>

- This website provides access to a large amount of information. Users may search for environmentally related information, public information centers, grants and financing, press releases, software, databases and newsletters regarding EPA's policies, regulations and assistance programs. Provides information on EPA's information holdings including documents, TRI, RCRA and other environmental data.

EPA Region 4 Home Page

<http://www.epa.gov/region4/>

-This website provides access to information regarding EPA Region 4 offices, programs, staff, and announcements.

EPA Atmospheric Pollution Prevention Division

<http://www.epa.gov/appd.htm/>

- This site provides information on the activities of EPA's Atmospheric P2 Division. Information on the Energy Star Program, Green Lights Program, Methane Outreach Program, publications, and software tools are also located at this website.

Global Environmental Network for Info Exchange (GENIE)

<http://www-genie.mrrl.lut.ac.uk>

- Started in 1992 by the Economic and Social Research Council, the Global Environmental Change Data Network Facility seeks to make information exchange among researchers more convenient.

Great Lakes Regional Environmental Information System

<http://epawww.ciesin.org/>

- The Great Lakes Website is a regional directory and data access system developed by CIESIN with support from the EPA's Great Lakes Program, and the Great Lakes National Program Office. It provides directory information, on-line resources, documentation of EPA's activities in the Great Lakes Region and a P2 forum for P2 technical assistance providers and P2 vendor information.

Great Lakes Regional Pollution Prevention Roundtable

<http://www.hazard.uiuc.edu/wmrc/greatl/>

- This site provides a forum for the exchange of information on pollution prevention programs, technologies and regulations impacting the Great Lakes region.

International Cleaner Production Info Clearinghouse (ICPIC)

telnet service through : fedworld.gov

- The ICPIC site provides international resources on cleaner production techniques.

The Industrial Assessment Center Database and P2

http://128.6.70.23/html_docs/p2.html

- This site contains the abstracts of papers presented at the April 1995 EPA Office of R&D - Risk Reduction Engineering Laboratory's 21st Annual Research Symposium.

Northeast Business Environmental Network (NBEN)

<http://www.nben.org/>

- This site provides the latest information on environmental, health and safety issues to businesses of all sizes and types, technical assistance and regulatory agencies, and environmental groups. NBEN sponsors workshops and conferences. In addition, NBEN members share information on proven techniques for implementing environmental management systems and self-auditing.

Ohio Technical Assistance Resources for Pollution Prevention (TARP2)

<http://www.epa.ohio.gov:80/opp/tarp/tarp/html>

- TARP2 is a resource tool designed by the Office of Pollution Prevention within the Ohio Environmental Protection Agency. TARP2 provides an extensive listing of resources for researching P2 opportunities.

Pacific Northwest Pollution Prevention Center (PPRC)

<http://pprc.pnl.gov/pprc>

- The PPRC is a nonprofit organization that works to protect the public health, safety and the environment by supporting projects that result in pollution prevention and toxics use elimination and reduction. The database includes over 300 P2 projects. The site offers search engines, up-to-date newsletters, P2 conference schedules and abstracts on P2 research projects. Request for Proposals (RFP) Clearinghouse provides information about P2 projects.

P2 GEMS

<http://turi.uml.edu/P2GEMS>

- P2GEMS is an Internet search tool for facility planners, engineers, and managers that provides technical, process, and materials management information on the web. It provides access to over 500 P2 resources on the Internet.

P2 Pillar Needs Assessment Report for FY96

<http://www.wl.wpafb.af.mil/pprevent>

-This site provides access to summaries of the U.S. Air Force Environmental, Safety and Occupational Health Technology Needs Survey. Pollution prevention needs and research on available technology to address these needs are included in a two volume publication.

P2 Tech Archives

<http://www.inhs.uiuc.edu/hwric/greatl/archives.html>

- This site provides access to past discussion topics on the Great Lakes Regional Pollution Prevention Roundtable.

Pollution Prevention Yellowpages

http://es.inel.gov/nppr/yellow_pages/96

- The *P2 Yellowpages* is linked to the Enviro\$en\$e website and provides information on state, local, and federal pollution prevention technical assistance programs.

Material Substitution

EPA RTI's Solvent Alternative Guide (SAGE)

<http://clean.rti.org/>

- This Database includes a guide to help web browsers find less toxic solvent alternatives. The Solvent Substitution Database in the Enviro\$en\$e site is another useful website to explore. Hazardous Solvent Substitution Data Systems, Solvent Handbook Database Systems, Department of Defense Technical Library, and the National Center for Manufacturing Science Alternatives Database links are available from Enviro\$en\$e.

Environmental Stewardship - Pollution Prevention - Los Alamos National Laboratory (P3O)

Material Substitution Resource List

http://perseus.lanl.gov/NON-RESTRICTED/MATSUB_List.html

- This website provides information on material substitution alternatives and links to over 26 material substitution related sites on the Internet.

Illinois Waste Management and Research Pollution Prevention Program

<http://www.inhs.uiuc.edu/hwric/p2.html>

- This site offers a publications list provided by the HWRIC, a division of the Illinois Department of Energy and Natural Resources.

Recycling Information

Global Recycling Network

<http://grn.com/grn/>

- This site provides recycling related information to buyers and sellers of recyclable commodities.

Recycler's World

<http://www.recycle.net>

- This site was established as a world-wide trading site for information related to secondary or recyclable commodities, by products, used surplus items or materials.

Technical Associations and Societies

The American Plastics Council

<http://www.plasticsresource.com/>

- The website is organized and formatted to meet the needs of specific user groups. The APC provide general and environmental information on the server.

Environmental Law Institute

<http://www.eli.org/>

- Incorporates ELI publications, programs, law and policy documents related to environmental law.

The National Institute of Standard and Technology (NIST)

<http://ts.nist.gov/>

- NIST provides a wide variety of services and programs to help U.S. industry, trade other government agencies, academia and the general public improve the quality of their products. The website provides access to international uniform practices.

NIST's Manufacturing Extension Program

<http://mep.nist.gov/>

-Provides hands-on technical assistance to America's smaller manufacturers.

Southern Section of the Air & Water Management Association

<http://ssawma.org/>

- This website contains information regarding the A&WMA activities for members in GA, AL, TN, and MS.

The Tellus Institute

<http://www.tellus.com>

- The Tellus Institute is a nonprofit organization that offers P2 information regarding resource management and environmental issues.

The Water Environment Federation

<http://wet.org/>

-The WEF provides information on information searches, links, catalogs, events, missions and other activities as they relate to water issues.

Waterwiser

<http://www.waterwiser.org/>

-Waterwiser provides a source of information on water efficiency and conservation.

Design for the Environment

Carnegie Mellon University Green Design Initiative Home Page

<http://www.ce.cmu.edu/GreenDesign/>

-This site provides access to research, publication lists and education programs in green design.

Sources of Environmental Responsible Wood Products

http://www.ran.org/ran/ran_campaigns/rain_wood/index.html

-Information on environmentally sound wood product alternatives is available at this site.

UC Berkeley Consortium on Green Design and Manufacturing

<http://greenmfg.me.berkeley.edu/green/Home/Index.html>

-Research, publications, contacts and green design software is available at site.

State Internet Programs

Alabama DEM

<http://www.adem.state.al.us>

-This site offers information on ADEM contacts, organization structure, rules and regulations, daily ozone and AQI and a calendar of events.

Delaware DNREC

<http://www.dnrec.state.de.us/>

-This site provides access to DNREC air, waste, water, and emergency services programs. Links to pollution prevention programs for businesses is available through this site.

Florida DEP Pollution Prevention Program

<http://www.dep.state.fl.us/waste/programs>

-Direct access to Florida's P2 resource center and technical assistance programs is available at this site. Factsheets, case studies and a calendar of events is also available.

Georgia Pollution Prevention Assistance Division

<http://www.Georgianet.org/dnr/p2.ad/>

- Provides a list of servers and P2 assistance programs on national and regional levels.

Illinois Waste Management and Research Center

<http://www.hazard.uiuc.edu/wmrc/>

-This site provides information on available pollution prevention services, access to library/clearinghouse, research funding and GLS and environmental database services.

Kansas State University Pollution Prevention Institute

http://www.oznet.ksu.edu/dp_nrgy/ppi/ppihome.htm

-This site provides access to PPI fact sheets, case studies, publications list and staff.

Kentucky Pollution Prevention Center

<http://www.louisville.edu/org/kppc/links/p2.html/>

-Pollution prevention staff, newsletters, training calendar and information on the materials exchange and other useful sites are available.

Kentucky Business Environmental Assistance Program

<http://gatton.gws.uky.edu/KentuckyBusiness/kbeap/kbeap.htm>

-Regulatory updates, publications, permit applications and other related sites are accessible through this site.

Louisiana DEQ Home Page

<http://www.deq.state.la.us/>

-This site provides access to DEQ Offices and a calendar of events. The search engine searches for specific topics by using key words and phrases.

Maine DEP's P2 Resource List

<http://www.state.me.us/dep/p2list.htm>

-In addition to providing general P2 information on their website, the Maine Department of Environmental Quality lists pollution prevention resources available on the Internet. Technology transfers, P2 equipment information, on-line networking, library information, document search, chemical data, regulatory, recycling, and environmental software links are listed in the server.

Michigan DEQ

<http://www.deq.state.mi.us/ead/>

- This website contains pollution prevention information provided by the Michigan EPA. Regional information regarding the Environmental Assistance Division is provided. Program descriptions, contact names, bulletins, calendars, publications, fact sheets and other Internet linkages to Environmental sites are listed.

Mississippi Department of Environmental Quality

<http://www.deq.state.ms.us/>

- This site is currently under construction.

North Carolina Waste Reduction Resource Center of the Southeast

<http://owr.ehnr.state.nc.us/wrrc/>

- The WRRRC, located in Raleigh, NC, was established in 1988 to provide multimedia waste reduction support for the eight states of U.S. EPA Region IV.

Ohio EPA Office of Pollution Prevention

<http://www.epa.ohio.gov/opp/oppmain.html>

- This website lists the service provided by the Ohio EPA and provides an extensive list of

resources available in researching pollution prevention opportunities.

Pennsylvania DEP - P2 and Compliance Assistance

http://www.dep.state.pa.us/dep/deputate/pollprev/pollution_prevention.html

- Access to publications, conference information and current events, as well as green technologies and technical assistance.

Pennsylvania Small Business Assistance Program

http://www.dep.state.pa.us/dep/deputate/airwaste/aq/Small_Business.html

- This site offers hands-on assistance for small businesses from the PA EPA. Specific regulations and P2 opportunities for several industries are mentioned.

South Carolina Department of Health and Environmental Control

<http://www.state.sc.us/dhec/>

-This site provides access to DHEC staff, a calendar of events.

TNRC (Texas) Office of P2 and Recycling

<http://www.tnrcc.state.tx.us/exec/oppr/index.html>

-Pollution prevention programs, staff and access to the Small Business Assistance Program (http://www.tnrcc.state.tx.us/exec/small_business/index.html) is accessible through this site.

Washington Department of Ecology Home Page

<http://www.wa.gov/ecology/>

-Access to Ecology resources, laws and regulations, tools, and publications is available at this site.

Federal Government Sites

The Code of Federal Regulations

<http://law.house.gov/cfexpl.htm>

- This site contains a complete list of federal regulations.

Department of Energy's Environmental Management Home Page

<http://www.em.doe.gov/>

-This site provides access to DOE's environmental management page and information clearinghouse.

Fedworld

<http://www.fedworld.gov/>

- This website provides a gateway to over 125 federal Bulletin Boards.

Library of Congress

<telnet://locis.loc.gov/>

- This site allows the web browser to search for topics by author, book, subject, keyword, etc.

Research Triangle Park Air BBS

<telnet://ttnbbs.rtpnc.epa.gov/>

- The website provides information for professionals in the air monitoring and air pollution control areas.

THOMAS

<http://thomas.loc.gov/>

- The website contains full text documents of current Congressional legislation.

Environment, Health, and Safety**Great Links Page**

<http://tis.eh.doe.gov/>

- The website provides accurate and current information regarding MSDS sheets, EPA Chemical Fact Sheets, and other topics related to materials, health and safety.

OSHA

<http://www.osha.gov/>

- This website provides information on OSHA standards, programs and services, compliance assistance programs, and technical information.

Water Online

<http://www.wateronline.com/>

- This site supplies information on manufacturers markets, discussion forums, engineering technology, resource libraries and associations.

Energy Conservation Related Servers**DOE Energy Efficiency and Renewable Energy Network**

<http://www.eren.doe.gov/>

- This site is the primary page for obtaining information from Energy Efficiency.

The Electric Power Research Institute (EPRI)

<http://epri.com/>

- EPRI provides research and development activities and P2 initiatives for the electric utility industry.

The Energy Analysis and Diagnostics Center (EADC)

<http://128.6.70.23/>

- This site provides links to information from the Industrial Assessment Center headquartered at Rutgers University.

Energy Information Administration

<http://www.eia.doe.gov/>

- This site offers information on energy prices, consumption information, and forecasting for a variety of fuel groups.

Technology Transfer

EPA Online Library System

<telnet://epaibm.rtpnc.epa.gov/> Login Password: "public access"

- The site provides web browsers access to a hazardous waste database.

National Technology Transfer Center's Environmental Technology Gateway

<http://www.nttc.edu/environmental.html>

- This site is an excellent source of links to other environmental information. Provides information on technology transfer, manufacturing industries, business assistance, conferences, programs, phone numbers, Pollution Prevention Yellow Pages, other general information and links to over 150 websites. Information includes links to various agencies (EPA, DOE, DOD, NASA, and others), federal laboratories, and white house information.

Plating/Finishing

American Electroplating and Surface Finishing Industry Home Page

BB # 201-838-0113 or <http://www.aesf.org>

-The website features Industry specific information regarding P2 technologies and

environmental issues in the Electroplating and surface Finishing Industry.

Finishing Industry Homepage

<http://www.finishing.com>

- This site provides information on new technologies, resources, conferences, and problems encountered by businesses involved in metal finishing, specifically anodizing, plating, power coating, and surface finishing.

National Metal Finishing Resource Center

<http://www.nmfrc.org>

- Provides vendor information, compliance assistance and access to Common Sense Initiative research and development and access to a technical database.

ISO 14000

Exploring ISO 14000

<http://www.mgmt14k.com>

- A primer to the ISO 14000, this site includes features like frequently asked questions, full text articles. The site covers ISO 14000 in depth and touches on ISO 9000 as well.

International Organization on Standardization (ISO)

<http://www.iso.ch/meme/TC207.html>

- The official organization for information on ISO 14000 and other international standard documentation. The URL points to the actual provisions of the ISO 14000 as directed by the Technical Committee 207, its administering body.

ISO 14000 InfoCenter

<http://www.ISO14000.com/>

- This website provides information on ISO 14000 articles, education and training, opportunities, a list of certified companies, publications, organizations, and other resources.

ISO Online

<http://www.iso.ch/infoe/guide.html>

- ISO Online is an electronic information service providing information on international

standards, ISO technical committees, meetings, and calendar.

Stoller ISO 14000 Home Page

<http://www.stoller.com/isofiles/>

- This site features information on ISO 14000 standards. It provides an introduction, background, issues and other links related to ISO 14000.

Printing

Laser Printer Toner Cartridge Remanufacturing Information

<http://www.toners.com/cgi-bin/uar/toner/welcome.html>

- Describes a list of products and available locations.

Printing Industry of America

<http://www.printing.org/>

- Provides information on technical assistance, education and publications, industry research and upcoming legislation.

Printer's National Environmental Assistance Center

<http://www.inhs.uiuc.edu/pneac/pneac.html>

- Provides documentation of environmental impacts of the printing industry and offers technical assistance to the printing industry. The site has links to Enviro\$en\$e and other websites.

Affirmative Procurement

Affirmative Procurement

<http://www.epa.gov/epaoswer/non-hw/procure.htm>

- This website provides a list of guidelines and resources to assist federal, state, and local agencies and others purchase and use products containing recovered materials.

Compliance Assistance

Agriculture Compliance Assistance Center (AgCenter)

<http://es.inel.gov/oeca/ag/aghmpg.html>

- The AgCenter provides "one-stop shopping" for the agriculture community, including information on the latest pollution prevention technologies and EPA requirements.

Automotive Service and Repair: Greenlink™

<http://www.ccar-greenlink.org>

- This site offers access to environmental compliance information and pollution prevention information to those working in the automotive service, repair, and autobody industry.

National Metal Finishing Resource Center

<http://cai.eclipse.net/>

-Offers vendor directories, technical databases, conference information and compliance assistance.

Cleaner Production**Climate Wise**

<http://www.epa.gov/oppeinet/oppe/climwise/cwwweb/index.htm>

- This site provides information to EPA's Climate Wise program; a government-industry partnership that helps businesses improve energy efficiency and reduce greenhouse gas emissions.

United Nations Environment Program

<http://www.unep.or.jp/>

- This site provides a survey of databases on environmentally sound technologies.

Life Cycle Analysis**Life Cycle Assessment****ECOSITE**

<http://www.ecosite.co.uk/>

- Provides information on recent events in LCA, case studies and downloadable copies of software.

European Network for Strategic Life Cycle Assessment Research and Development

<http://www.leidenuniv.nl/interfac/cml/lcanet/hp22.htm>

-A platform for LCA research and development.

EcoDS (Environmentally Conscious Decision Support System)

<http://shogun.vuse.vanderbilt.edu/usjapan/ecods.htm>

- Site for a decision support tool for a cost-risk evaluation of environmentally conscious alternatives using streamlined LCA.

Bulletin Boards

Enviro Equipment Consulting

Bulletin Board Number : 703/506-1025

- This bulletin board offers a variety of environmental topics with a focus on recycling and a clearinghouse for environmental equipment.

EPA Pollution Prevention Exchange System (PIES)

Bulletin Board Number : 703/506-1025

-EPA's bulletin board system provides information on general pollution prevention topics.

EPA Alternative Treatment Technical Information Center (ATTIC) and ORD

Bulletin Board Number : 513/ 569-7610

- This bulletin board provides a database for environmental EPA documents and P2 studies.

HMIx - Hazardous Materials Information Exchange System

Bulletin Board Number : 708/972-3275 Modem Setting 8,N,1

- HMIx provides a forum to prevent, prepare for, and mitigate hazardous waste material emergencies.

Massachusetts Office of Technical Assistance Bulletin Board

Bulletin Board Number : 617/727-5621

-This bulletin board provides news about upcoming workshops, technical information and industry case studies.

NMEN - National Materials Exchange network

Bulletin Board Number : 800/858-6625

- NMEN provides a forum for industry waste exchange.

North Carolina Pollution Prevention Pays Program

Voice Number: 919/733-7015. Call for access.

- P2 Pays Bibliography by Industry Category.

Ozone Action Information Clearinghouse (OAIC) / Ozonet

Bulletin Board Number : 703/506-1025 Modem Speed 9600bps

- This site provides information on new technologies and regulatory measures within the industrialized world. The website includes technical reports, solvent properties, supplier information, legislation, contacts and forums.

3. Pollution Prevention-Focused Periodicals and Newsletters

The following list has been compiled to present a snap shot of the types of publications available through private publishers, professional associations, state and regional agencies and the Internet that address pollution prevention and waste minimization in a variety of media. This list is not intended to be exhaustive but merely a sample of the resources that readers may consult to obtain additional information on pollution prevention/waste minimization. When available, mailing addresses, Internet addresses and phone numbers have been provided.

Alternative Fuels Data Center Update

This free quarterly newsletter provides information on technical updates, federal legislation, ongoing alternative fuel projects and product and service offerings.

This newsletter is available through the National Alternative Fuels Hotline at 1925 N. Lynn St., Suite 10809, Arlington, VA 22209.

Information about the journal is also available through the Internet at <http://www.afdc.nrel.gov>.

Arizona Pollution Prevention Newsletter

The Arizona Pollution Prevention is a quarterly newsletter of the Arizona Department of Environmental Quality, published to provide information about statewide pollution prevention issues and actions. Funding for the newsletter is provided as part of the Arizona Pollution Prevention Leadership Enhancement (APPLE) program through the Pollution Prevention Incentives for State grants from the U.S. EPA.

For more information about P2, or to subscribe to the publication call (602) 207-4247.

The newsletter is available on the Internet at the following website address:
<http://es.inel/new/contacts/newsltrs/arizona/arizona.html>

Army Acquisition Pollution Prevention Newsletter

This journal is intended for Commanders, Chiefs of Staff, Program Executive Officers, Program/Product/Project Managers, and Training Activities Commandants/Directors. It provides information and assistance on hazardous material management, material substitution, the "Greening Acquisition Process", other environmental programs and P2 activities initiated by the U.S. Army. Conferences and Training Workshops are listed in addition to workshop proceedings.

Write to U.S. Army Material Command, Attn: AMCRD-E (Mr. Garcia-Baco), 5001 Eisenhower Avenue, Alexandria, Virginia 22333-0001, fax AAPP SO at (703)617-5146, or E-mail to lgarcia@hqamc.army.mil for questions or download a copy from <http://es.inel.gov/new/contacts/newsltrs/army/armynew.html>.

The World Wide Web address is <http://www.aapso.com/newsltr/newsltr.html>.

Army Energy Information Exchange Newsletter

This newsletter is designed to aid in the transfer of information on the valuable lessons learned from the U.S. Army's energy seminars. Information is published in the areas of hazardous material management, energy programs, heating systems, boiler plants, water management, new technology, research and development activities and case studies at various army installations.

The information may be accessed via Internet at <http://es.inel/new/contacts/newsltrs/armcnsrv/armconsr.html>. Points of contacts are available for each individual program.

CFC Halon News

The newsletter is a quarterly publication by the Navy CFC and Halon Clearinghouse. Conference highlights, safety tips, training material, P2 information, new material and technology information and points and contact are provided.

The CFC Halon News can be accessed via the Internet at <http://home.navisoft.com/navyozone/index.html>. The information is geared primarily to the Navy.

Cleaner Production Newsletter

The newsletter of the UNEP IE/PAC network is dedicated to promote cleaner production. UNEP, a global network of people active in the area of product development and the environment, promotes policies, research initiatives, education, and information exchange and works in cooperation with other organizations in the area. The publications are compiled from international sources and attempts to unite international efforts for cleaner production technologies and green management. Contact points for each program are provided.

To access the newsletter go to: <http://es.inel/new/contacts/newsltrs/unep/unep-8.html>. For additional information phone (617) 438-8464.

Connecticut Technical Assistance Program - Quarterly Newsletter

This newsletter lists a calendar of events, a technology bulletin, case studies, material exchange and technology assistance programs. The newsletter documents regional success stories and provides environmental information and material exchange programs for businesses. The Site Visit Program, which offers Connecticut businesses free non-regulatory suggestions from experienced engineers on multi-media P2 programs is one of many services provided by the ConnTAP.

For free answers to technical questions or for free information regarding Connecticut businesses, contact Bob Brown at (860) 241-077, Fax (860) 244-2017, E-mail: p2eline@aol.com, or write to ConnTAP Quarterly, 50 Columbus Blvd. 4th Floor, Hartford, CT 06106.

The newsletter is also accessible via Internet: <http://es.inel/new/contacts/newsltrs/conn/contap5.html>

Cross Talk

This newsletter is produced by PRO-ACT, a base-level pollution prevention resource sponsored by HQ Air Force Center for Environmental Excellence. PRO-ACT provides AF

guidance and directives, research tools and services, funding information, supply process information, training and conference information and other resources. Environmental, process, industrial, and logistics experts provide services and write articles for this newsletter.

Contact AFCEE PRO-ACT at (800) 233-4356 or DSN 240-4214 for additional information.

The newsletter is available through the Internet address <http://www.afcee.brooks.af.mil/pro-act/main/cross/crostalk.html>

DEQ Virginia Department of Environment Quality Office of Pollution Prevention - Quarterly Newsletter

The Virginia DEQ newsletter includes information on regional grant programs, P2 initiatives, technical assistance programs, a conference calendar and P2 networking information. Through the Office of Pollution Prevention (OPP), Virginia businesses can receive on-site technical assistance or personalized research services. Access to a library full of helpful information and training services is also available.

Contact the OPP by writing to DEQ, P.O. Box 10009, Richmond, VA 23240-0009, calling (800) 592-5482, or by faxing (804) 698-4346 for additional information on Virginia DEQ programs.

DOE Environmental Management

is a quarterly report from the U.S. Department of Energy's Office of Environmental Management.

The report is available through the Internet address: <http://www.em.doe.gov/emprog/>.

Du Pont Company - Newsletter

The newsletter is published by the Du Pont Corporation. The success story offers very brief information on a 90% waste reduction achievement in three years in an automotive finishing plant.

The Internet site <http://es.inel/new/contacts/newsltrs/duPont-d.html> provides information on the plant redesign.

Electronic Green Journal

This journal is published on an irregular basis by the University of Idaho Library. It is devoted to disseminating information concerning sources on international environmental topics including: assessment, conservation, development, disposal, education, hazards, pollution, resources, technology and treatment. The focus is to publish articles, bibliographies, reviews and announcements for the educated generalist as well as the specialist.

To subscribe, send an E-mail message to majordomo@uidaho.edu with the following included: subscribe egj Your_email_address.

The report is available through the Internet address:
<http://www.lib.uidaho.edu:70/docs/egi.html>.

Energy Star Buildings and Green Lights Update

This free quarterly publication is produced by US EPA and contains articles on energy conservation achievements nationwide and EPA's Energy Star/Green Buildings program.

To subscribe, call the toll free Energy Star/Green Lights Hotline at 1-888-STAR-YES.

The newsletter can be downloaded from: <http://www.epa.gov/appdstar/news>.

Environmental Protection

This publication is published monthly. The magazine focuses on environmental management and problem solving issues in all media and targets environmental professionals. It addresses a variety of environmental topics and contains sections on regulatory trends, news updates and products and services.

For additional information contact (817) 776-9000.

Environmental Science and Technology

This monthly publication contains information on a variety of environmental subjects including pollution prevention and waste minimization in air, water and waste. The publication is technically oriented and contains scientific and research papers, environmental news and legislative updates from around the country.

For general information, businesses may call the toll free number (800) 333-9511.

Environmental Solutions

This magazine provides a forum to discuss environmental management issues in a variety of media. In addition to articles on a variety of environmental topics, the magazine provides the reader with informational updates on the federal register, a conference and workshop calendar and products and services that are available.

Businesses interested in subscribing to this publication may contact (218) 723-9477. The subscription rates for this publication is \$35 year.

EPA Control Technology Center (CTC) Newsletter

The CTC News is a quarterly publication of the U.S. EPA's Control Technology Center (CTC). The CTC is an informal, easy-to-use, no-cost, technical assistance service for all state and local air pollution control agency and EPA regional Office staffs. For others, some services may be on a cost-reimbursable basis. The CTC offers quick access via a CTC Hotline and the CTC Bulletin Board, and in-depth technical support through source-specific engineering assistance projects or technical guidance projects.

The CTC BBS can be accessed by calling (919)541-5742 or (FTS) 629-5742 for 1200/2400 bps, or (919) 541-1447 or (FTS) 629-1447 for 9600 bps (8, N,1). The hotline to access EPA expert staff for consultation, references to pertinent literature or technical data is (919) 541-0800 or (FTS) 629-0800.

Access is also available via Internet address <http://es.inel/new/contacts/newsltrs/ctc/ctc.html>.

FOCUS Waste Minimization Newsletter

This newsletter provides information on environmental regulatory policy changes, industry compliance strategies, case studies, waste reduction updates, small business resources, contacts and other information regarding environmental issues. It also lists documents free of charge to North Carolina businesses.

The website <http://www.owr.ehnr.state.nc.us/owr/news.htm> provides direct access to the newsletter.

From the Source

This journal is a quarterly newsletter from the Pollution Prevention Assistance Division (P2AD) of the Georgia Department of Natural Resources. The journal offers technology updates in the field of pollution prevention, assistance programs, general P2 information and a forum for environmentally related issues.

Send comments, suggestions, or questions to p2ad@ix.netcom.com.

The journal is available through the Internet: <http://www.Georgianet.org/dnr/p2ad/>.

Green Tech Report

This newsletter is a publication of the California Environmental Technology Partnership (CETP). Each quarter the GTR looks to promote, develop and market the state's \$17 billion environmental technology industry. A calendar of events, international programs and state initiatives are designed to provide the environmental industry with valuable information. GTR welcomes information on new technologies and products from CETO partners.

Contact the Green Tech Report, Cal/EPA, 555 Capitol Mall, Suite 235, Sacramento, CA 95814; Tel. (916) 324-9670, fax (916) 445-6401.

The GTR is available through the Internet at <http://es.inel/new/contacts/newsltrs/GreenTechReport/greenrpt.html>.

HazTech Transfer

HazTech Transfer is published quarterly. The newsletter is interested in factual material on research appropriate to the Great Plains-Rocky Mountain HSRC, technology transfer and training activities, articles of opinion on hazardous material technology or policy, reviews of technical books related to HSRC research, technology transfer and training, senior management changes in EPA Regions 7 & 8 and DOE, and other related information.

Write to the Great Plains-Rocky Mountain Hazardous Substance Research Center, EPA Region 7 & 8, 113 Ward Hall, Kansas State University, Manhattan, KS 66506-2502

The newsletter is available through the Internet (<http://es.inel/new/contacts/newsltrs/haztech/haztech.html>)

The Hazardous Technical Information Services HTIS

The HTIS is a service of the Defense Logistics Agency located at the Defense Supply Center Richmond (DSCR), Richmond VA. The goal of the HTIS is to assist the DoD community with Helpline Answer Service as well as with a Technical Bulletin concerning the compliant hazardous materials and wastes. The journal responds to environmental questions and offers links to other environmental bulletins.

The HTIS can be reached via telephone 1-800-848-HTIS, Fax (804) 279-4194, E-mail: gss5089@dscr.dla.mil, or via mail at the Defense Supply Center Richmond, DSCR-VBC/HTIS, 8000 Jefferson Davis Highway, Richmond, VA 23297-5609.

The Internet address is <http://www.dgsc.dla.mil/htis/htis.htm>. The HTIS website contains the newest newsletter which provides valuable information on recycling, regulatory issues and other practical environmental issues.

Iowa Waste Reduction Center Newsletter

The newsletter presents publications regarding small business assistance programs, P2 tools, waste management and recycling information and Iowa waste reduction success stories.

Write to Iowa Waste Reduction Center, 75 Biology Research Complex, University of Northern Iowa, Cedar Falls, IA 50614-0185.

The newsletter is available through the Internet (<http://es.inel/new/contacts/newsletters/iowa/iowa.html>)

Journal of Air and Waste Management Association

This magazine is published monthly and features articles on waste minimization and pollution prevention related to air quality and the management of waste. In addition to articles on innovative air and waste management technologies and techniques, this publication discusses regulatory trends and provides information on conferences, workshops and available products and services. A yearly subscription for nonprofit libraries and institutions is \$90 and \$200 for all others.

For additional information call (412) 232-3444.

Kentucky State Energy Conservation Program Updates

The purpose of the Conservation Update is to facilitate the transfer of current State Energy

Conservation Programs (SECP) conservation program and technology information among the states and territories. It provides a short description the programs and contact names for each state.

For monthly issues, send submittals (by the 10th of each month), with address corrections, and mailing list changes to : Conservation Update, Kentucky Division of Energy, 691 Teton Trail, Frankfort, Kentucky 40601. Tel (502)564-7192, Fax (502) 564-7484.

This newsletter is also available through the Internet at <http://es.inel/new/contacts/newsltrs/kyupdt/kyupdt.html>.

Lighting Answers: Task Lighting for Offices

Lighting Answers is published by the Lighting research Center at the Rensselaer Polytechnic Institute. The publication is intended to complement the National Lighting Product Information Programs' (NLPIP) publication "Specifier Reports". It provides information related to lighting and energy research programs conducted at the Lighting Research Center.

For publication ordering information, write or fax : Lighting Research Center, Rensselaer Polytechnic Institute, Troy, NY 12180-3590, Fax (518)276-2999.

The publication is available at the Internet address: <http://es.inel/new/contacts/newsltrs/light/>

The Minimizer Newsletter

The Minimizer is published for the Naval Facilities engineering Service Center on a quarterly basis. In this newsletter pollution prevention success stories, environmental regulatory news, EPA/USN partnership programs, material substitution programs, technical resources and waste minimization activities in the U.S. Navy are highlighted.

Contact the Commanding Officer, CAPT John Collins, USN, 560 Center Drive, Fort Hueneme, CA 93043-4328.

The newsletter is available on-line at: <http://es.inel/new/contacts/newsltrs/minimize/minimize.html>. The website <http://es.inel/new/contacts/newsltrs/navy/navynew.html>. offers links to other Navy newsletters.

Pollution Prevention Advisor

Articles in this pollution prevention DOE newsletter provide information on federal P2

programs, new technology, information resources, award programs, cleaner technologies implementations, industry P2 activities, waste management alternatives, environmental management resources and links to other P2 information.

Back issues can be ordered from McPherson Environmental Resources at (423) 543-5422. The newsletter is also available at the DOE's EPIC website <http://epic.er.doe.gov/epic>.

The newsletter can be accessed via Internet at http://epic.er.doe.gov/epic/bulletin/DP_PPA.sph. In the future, an index of back issues will be available to be downloaded as a WordPerfect file.

Pollution Prevention News

The free newsletter published by the P2 Office of the EPA contains information on updates, calendars, state program information, policy changes, international programs, resource links and contacts.

To be added to the mailing list write to Pollution Prevention News, U.S. EPA (MC7409), 401 M Street SW, Washington, DC 20460, or fax: (202)260-2219, or E-Mail Heikkinen.Ruth@epamail.epa.gov.

It is available on-line at: <http://es.inel/new/contacts/newsletters/p2news/>.

Pollution Prevention Northwest Newsletter

Pollution Prevention Northwest is published bi-monthly by the Pacific Northwest Pollution Prevention research Center (PPRC). Information on permitting, P2 in higher education, P2 in other states and regions, a P2 resource links, on-line services, conference information, meeting schedules and general P2 information is provided.

To receive a free subscription, contact the PPRC, 1326 Fifth Ave., Suite 650, Seattle, Washington 98101, USA; Tel (206) 223-1151; fax (206) 223-1165.

On-line access is available through: <http://es.inel/new/contacts/newsletters/northwest.html>

Pollution Prevention Planning in Washington State Businesses

Published by the Washington State Department of Ecology, this newsletter highlights regional

waste reduction programs, industry-specific P2 initiatives (manufacturing, printing, pulp and paper mills, aerospace, defense, medical electronics) and links to other P2 resources.

Write to the Washington State Department of Ecology, Mail Stop PV-11, Olympia, WA 98504-8711.

Access the website server address of the last edition at <http://es.inel/new/contacts/newsltrs/P@Planning/p2plan.html>.

Pollution Prevention Quarterly

The newsletter provides information on P2 news around the country. Partnership programs between industry members state pollution prevention offices are highlighted. The newsletter provides technical information and P2 developments in addition to P2 conference schedules and success stories. Enforcement, permitting, initiatives, training, volunteer programs, facility audits information and state news are updated on a regular basis.

To be placed on the permanent mailing list, contact : The Pollution Prevention Program, Dade County DERM, 33 SW 2nd Ave., Miami, FL 33130-1540; Tel. (305) 372-6804.

The website addresses of their latest edition are: <http://es.inel/new/contacts/newsltrs/derm93.html> and <http://es.inel/new/contacts/newsltrs/ppdqo94.html>.

Pollution Prevention Review

This quarterly journal discusses source reduction and waste minimization, with an emphasis on technical and institutional issues encountered in industrial settings.

For additional information, contact Executive Enterprises, Inc. 22 West 21st St., New York,, NY 10010-6990, (800) 332-8804.

Pollution Prevention Update

This publication highlights federal legislation, EPA initiatives, Pollution Prevention Roundtable activities, and state pollution prevention program activities.

This publication is available from the National Pollution Prevention Roundtable, 218 D Street, SE, Washington, DC 20003, (202) 543-7272.

Point Source

The Point Source is a quarterly newsletter published by the Program for Toxic Air Pollutant Studies at the University of Northern Iowa. This program focuses on applied research to reduce emissions of hazardous pollutants from small business sources.

For a hardcopy or additional information contact: The Iowa Waste Reduction Center, 75 Biology Research Complex, University of Northern Iowa, Cedar Falls, IA 50614-0185; Tel. (800) 422-3109.

The website <http://es.inel/new/contacts/newsltrs/pintv3-1.html> provides on-line service to the newsletter.

Prevent!

Prevent! is a publication for the promotion of pollution prevention at the Idaho National Engineering Laboratory, a facility operated for the U.S. Department of Energy. Material exchange programs, waste minimization initiatives, P2 conference abstracts, chemical data information resources, case studies and other up-to-date P2 information is provided in the newsletter.

Send submissions or comments to: Prevent!, P.O. Box 1625, Idaho Falls, ID 83415-3950. The website offers on-line access to the latest edition at <http://epic.er.doe.gov/epic/bulletin/Prevent.sph>.

RII P2 Rethink, Reduce, Reuse review - A USEPA Region II Pollution Prevention Biannual

The newsletter provides information from the Region II office of the EPA. Pollution prevention opportunity assessments, news from the National P2 Roundtable, P2 grant summaries, industry initiatives, P2 editorials and policy information is featured on the newsletter.

A hard copy may be requested by E-mailing the editor at sapadin.janet@epamail.epa.gov.

The newsletter is available through the Internet at <http://es.inel/new/contacts/newsltrs/riip/riip-ws.html>.

Reusable News

This newsletter offers information on recycling case studies, market information, state programs, products, publications and links to other organizations that support the efforts of the EPA.

It is available through EPA's RCRA Information Center. EPA, 401 M Street SW (5305), Washington, D.C 20460 or phone (800) 424-9346.

Other access is available through the following servers: gopher.epa.gov - "Office of Solid Waste/Reusable News", ftp.epa.gov server ("/pub - OSW"), telnet: gopher.epa.gov ("EPA-EPA Offices and Regions-OSW"), and <http://www.epa.gov> ("EPA Offices and Regions - OSW").

The publication is available on-line at <http://222.epa.gov/epaoswer/non-hw/recycle/reuse.htm>.

U.S. DOE Building Energy Standards Program (BESP) Update

The newsletter from the U.S. Department of Energy Building Standards Program at Northwest Laboratory features information on DOE developments in the field of P2. Model Energy Code Compliance Materials, DOE funding support, calendars, studies, surveys, state incentive funding programs, conferences, workshops, meetings and other P2 information related to the DOE is presented in the publication.

The newsletter is available at the website address: <http://es.inel/new/contacts/newsletters/besp/besp3-3.html>.

WDNR Waste-Less News

The newsletter is sponsored by the Wisconsin Department of Natural Resources Hazardous Waste Minimization Program. The publication offers regional information on P2 and waste minimization activities in Wisconsin and the Great Lakes region. Many articles from regional Hazardous Waste P2 offices are presented.

The newest edition of WDNR Waste-Less-News can be accessed via the Internet at <http://es.inel/new/contacts/newsletters/wsteless/wsteless.html>

The Waste Line: KY Partners State Pollution Prevention Center

The Waste Line is a publication that promotes P2 awareness in the state of Kentucky. Partnership programs between manufacturing industries, P2 education in KY, research opportunities, waste management, waste reduction programs and a list of current events is documented in the newsletter. The newsletter also provides a list of other newsletters related to P2 and waste minimization.

Contact Marvin Fleishman, KY PARTNERS (502) 852-6357; fax (502) 852-6355, or E-mail m0flei01@ULKYVM.Louisville.edu.

The newsletter is available by Internet
(<http://es.inel/new/contacts/newsletters/wstlinewst-line.html>).

Weapon System Pollution Prevention Monitor

The Air Force Material Command's newsletter contains articles describing the Air Force's on-going initiatives to incorporate pollution prevention into new and existing weapon systems.

To be added to the mailing list, write or call: Human Systems Center. HSC - ESOH Service Center 2402 E. Drive, Brooks, AFB, TX 78235-5114; (210) 536-5452, Fax (210) 536-3228; E-mail: John.Biggs@GUARDIAN.BROOKS.AF.MIL.

The Internet address is: <http://www.brooks.AF.MIL/ESOH/esohhome.htm>

The Xchange

The Xchange is the official Environmental Program newsletter of the Naval Aviation Systems Team. The newsletter features information on life cycle management, compliance issues, upcoming events, P2 programs and the technology depot.

Write to Commander, AVAIRSYSCOM, 1421 Jefferson Davis Highway, Arlington, VA 22243, Attn: AIR-8.0Y3 Editor for subscription information or to submit an article.

The Internet address <http://es.inel/new/contacts/newsltrs/xchange/xchange.html> provides on-line service to the newsletter.

Hazardous Technical Information Services (HTIS)

(800) 848-4847 or (804) 2279-5168

HTIS is operated by the Defense Logistics Agency's General Supply Center. This information line supports DoD activities world-wide. Staff answer of full range of questions about hazardous materials, regulations, safety, industrial hygiene, substitution and disposal.

Army Environmental Center (AEC)

(800) 872-3845

AEC is an environmental information response line for Army organizations world-wide. The response line answers questions about pollution prevention or can refer callers to the appropriate Army subject matter expert or agency for assistance.

Headquarters, Forces Command (FORSCOM)

(404) 669-7513 or DSN 367-7513/7477

The FORSCOM environmental hotline is an internal support element operating in direct support of FORSCOM installations providing information about pollution prevention.

Navy Sea Systems Command (NAVSEA) CFC**Halon/Clearinghouse**

(703) 769-1883

This Navy assistance program provides Navy organizations and activities world-wide with information on ozone depleting substances, and assistance in meeting compliance or pollution prevention goals. The clearinghouse maintains a database of military specifications which require ODS.

6. Calendar of Upcoming Pollution Prevention Events (Conferences)

DECEMBER 1997

Title: **X-Change '97 - The Global D&D Marketplace**
Date: December 1 - 5, 1997
Sponsor: U.S. Department of Energy & Florida International University
Location: Miami, FL
Contact: 1-800-964-9160

Title: **HAZWASTEWORLD SUPERFUND XVIII**
Date: December 2 - 4, 1997
Sponsor: E.J. Krause & Associates/Environmental Industry Associations
Location: Sheraton Washington Hotel, Washington, D.C.
Contact: To Register: (301) 493-5500, FAX (301) 493-5705

Title: **3RD Annual SERDP Symposium**
Date: December 3 - 5, 1997
Sponsor: Strategic Environmental Research and Development Program
